

IN THE SPECIFICATION

Please delete the flowchart on page 27.

Please insert the following paragraph before the heading at page 10, line 5:

Fig. 17 is a flow chart showing exemplary procedures for carrying out methods for producing phosphors according to the present invention.

Please amend the paragraph beginning at page 26, line 22, as follows:

The process for producing the phosphor according to the present invention to which the separation method of the present invention is applied is specifically explained below by referring to the ~~following~~ flow chart in Fig. 17. Meanwhile, in the flow chart, the respective steps may be performed through any suitable route along the direction indicated by the arrow as long as the final separation product can be obtained.
